

Workshop (W 1.5)

“Clean Integrated Energy System for all European”

Madeira Island, Portugal

www.ice-conference.org

The workshop will present the objectives and preliminary results of 4 H2020 projects in the area of Smart Grids and Storage. Specifically, they will present a set of solutions, technologies and business models to increase the smartness, stability and security of an open, consumer-centric European energy grid and provide cleaner and more affordable energy for European citizens, through an enhanced use of storage share of RES.

The projects will address the SET-Plan strategies in order to provide a secure, cost-effective, clean and competitive energy supply.

Target Attendees

- DSO's, industry, researchers

Chair:

- M.Eng Lola Alacreu (lalacreu.etraid@grupoetra.com), ETRA I+D, (Spain)

Co-Chairs:

- Ana Maria Arias (amarias.etraid@grupoetra.com), ETRA I+D, (Spain)

Organizing Committee:
